### Custodian Of Alien Property Tells Vets Of Alleged Juggling

Misstatement Prevented Harding From Approving Compensation, Is Claim

ESTIMATES ARE STRETCHED

Owsley Tells Hearers Measure Will Pass Over Coolidge Veto

By Associated Press  
New York—American Legionnaires were pushing their campaign for an ex-service men's bonus Monday with renewed vigor after a sensational report Sunday night in which the treasury department was accused of "juggling" its estimates against the project, and Secretary Mellon was charged with "misleading" the late president and President Coolidge.

The charge of "juggling" was made by Colonel Thomas W. Egan, alien property custodian, at a bonus meeting. He said a "high treasury official" had admitted the alleged manipulation of the figures to him and had confessed the estimates were dishonestly increased each time congress requested a revision, "because it was felt necessary that the treasury department use stronger and stronger arguments against the bonus each time it came up."

**HARDING WAS MISLED**  
Representative Benjamin L. Fairchild, Republican of New York, said Secretary Mellon misled Mr. Harding in anticipating a \$500,000,000 deficit when events proved there was a \$300,000,000 surplus in the treasury. This \$200,000,000 difference Mr. Fairchild asserted, prevented President Harding, perhaps more than any other feature from signing the bonus bill.

Alvin M. Owsley, former national commander of the legion, told his hearers the bonus would pass the house by a 5 to 1 vote and get a majority in the senate. "Eventually passing over the veto of Calvin Coolidge."

Prohibition Commissioner Requests Rich To Set Example For Nation

By Associated Press  
Chicago—A plea for greater cooperation of law enforcement agencies in administering the Volstead act and for strict observance on the part of the people, especially the "well-to-do and influential citizens" as an example to others and to aliens was made by Prohibition Commissioner Haynes in an address here Monday before the citizenship conference.

Mr. Haynes referred to the action of Mayor Devine in cleaning up the "wet" spots in Chicago as a demonstration of the "efficiency of proper correlation of local and federal officials," and declared the work done in Chicago and Philadelphia "is but an illustration of what can be done in the most difficult sections when an honest, sincere, cooperative effort at enforcement is made."

**DRY LAW TEST CASE SET FOR MARCH 15**

Madison—Hearing of the state's case against George Baileys, involving validity of provisions of the state prohibition law, Monday was set for March 15, before the supreme court. The case of United States Fidelity and Guaranty Insurance Co. against State Insurance Commissioner Smith involving validity of health and accident policies was set for the same day as was the second test case of the building heights law.

**WAR DEBT POLICY REMAINS UNCHANGED BY CONFERENCE**

Washington, D. C.—The American government's war debt policy remained unchanged after a conference Monday of the debt commission. The commission failed to act on proposals that the debtor government be reminded again that the United States is awaiting funding proposals.

#### WOUNDED SENATOR IMPROVES SUNDAY

Vermont Legislator Still In Serious Condition, Medicals Say

By Associated Press  
Washington, D. C.—Senator Greene of Vermont, the victim of a prohibition chase within the shadow of the capitol, remained in a serious condition Monday morning, no change having been observed during the night.

The bullet which hit him over the left eye Friday night while he was passing an alley in which two men in an automobile were being pursued by a prohibition enforcement party did not penetrate the skull. It drove a bone splinter into his brain, however, necessitating a delicate operation. He showed some improvement Sunday but his physicians desisted his condition as still serious. They added, however, that he was resting as comfortably as could be expected.

#### PIONEER DENTIST DIES IN SUPERIOR

By Associated Press  
Superior—Dr. J. L. Malone, well known Superior dentist, died Sunday morning at a local hospital following an illness of several months. Doctor Malone was one of Superior's pioneer dentists, having conducted his practice here since 1887. He was also active in civic and fraternal affairs.

Doctor Malone served one year as president of the Wisconsin State Dental association and at one time headed the Northern Wisconsin Dental association. He was also president of the Douglas Co. Fish and Game association, an active member of Superior Council No. 499, Knights of Columbus and of Superior Elks lodge.

What these new angles involve was not made public.

### HOUSE ENDS FIGHT OVER SURTAX CUT

Final Arguments Occupy Representatives; Leaders Seek Compromise

By Associated Press  
Washington—Final arguments in the four-day general debate on the revenue bill occupied the house Monday while Republican leaders continued conferences with the insurgent members of their party in an effort to gain a majority for the vote on the income tax rates schedules which will be taken up Tuesday with amendments in order.

Two conferences Saturday brought a definite offer from the insurgents led by Representative Egan and Nelson, Wisconsin, for a 40 per cent maximum surtax rate if the normal rates were cut in half, but the Republican leaders after deciding to go as high as 37 1/2 per cent on the surtaxes refused flatly to agree to the 40 per cent cut in normal rates. The Mellon proposal embodied in the bill provides for a 25 per cent reduction in the normal rates and the Republican chiefs insist the treasury estimates have shown a further cut is not possible if sufficient revenue is to be raised.

The organization Republicans first decided to boost the surtax maximum to 35 per cent—10 higher than the Mellon figure—in an effort to unite the party against the stand of Democrats for a 44 per cent rate, but the leaders admitted that this rate would be supported by only 208 Republicans with 218 votes needed for adoption. Negotiations then were opened with the insurgents who had stood out for the present 35 per cent maximum surtax rate.

Plans had been made to begin reading the bill at the conclusion of debate at 4 o'clock Monday.

#### NEBRASKA JUDGE SLAIN IN COURT

By Associated Press  
Lincoln, Neb.—William Morning, Lincoln district judge, was shot and killed early Monday in his courtroom by Wallace G. Wallick, who in turn shot and killed himself. The judge was shot through the heart.

Wallick shot at C. F. Rein, attorney for his wife, Madeline Wallick, who was suing him for separate maintenance and at his wife. Neither of these shots took effect. Judge Morning walked from his bench after he had been shot and was assisted to his room adjoining the court, where he died in a few minutes.

#### GREEN BAY SEEKS FUNDS FOR JUNIOR HIGH SCHOOL

By Associated Press  
Green Bay—The finance committee of the board of education has decided to ask the city council for an appropriation of \$300,000 for the building of a modern junior high school for \$100,000 to complete a new high school building now in process of construction, it was announced Monday.

These are the first steps in the carrying out of an extensive educational program laid out in 1922.

### UNIONS CLASH IN STRIKE OF DOCK WORKERS

Rivals Of Regulars Advise "Stay In Strike" To Embarrass Rivals

By Associated Press  
London—The dock strike which was declared Saturday, affecting 120,000 men in ports of the United Kingdom, is expected to reach full effectiveness Monday officials of the Transport and General Workers union stated.

No hope is based on action of the "Blue Ticket union" a new and hitherto unrecognized rival of the Transport Workers' union, which has recommended "a stay in strike" under which men would continue on duty but go slow on piece work and refuse to do overtime. This action is viewed as an embodying any altruistic motive toward the public but is aimed at injuring the Transport union and enforcing recognition of the Blue Ticket by employers who have hitherto ignored the organization's existence.

The workers are held in many quarters to have weakened their cause by angry impatience, and their refusal of arbitration on the demand for a shilling more increase than the employers are willing to concede receives considerable condemnation. The strike is already threatening to affect the newspapers through stoppage of newspaper supplies. The Daily Chronicle union prints a smaller paper than usual, attributing it to this cause.

In Plymouth the strike involved handling of the American ambassador's despatches from Washington by the representative who usually comes to superintend the task but in this case he had to remove them personally from the liner, New Amsterdam.

#### CHIPPEWA-CO PIONEER STRICKEN WITH DROPSY

Mr. Eder was brought in America from abroad when four years old and lived continuously on the farm on which his parents settled. A widow, three children and a sister and twelve grandchildren survive.

### SENATE BACKS CHOICE OF OIL QUIZ COUNSEL

Upper House Approves Nomination Of Owen J. Roberts To Succeed Strawn

By Associated Press  
Washington, D. C.—Organization of the legal machinery to handle the oil lease suits was completed Monday by senate confirmation of Owen J. Roberts of Philadelphia as special government counsel.

Despite opposition to Mr. Roberts by Senator LaFollette of Wisconsin, the Republican insurgents' chieftain, Republican organization leaders were confirmed by about the same majority as was given Saturday to that of Alton Pomarene of Canton, O., the other lawyer selected for the oil cases by the president.

Senator Walsh, Democrat, Montana, leader in the inquiry who opposed confirmation of Mr. Pomarene's nomination and has expressed disapproval of Mr. Roberts' qualifications for the work, was absent Monday, having left the city for an unannounced destination.

### \$25,000 DAMAGE IS CAUSED BY FLAMES

Duluth, Minn.—Fire swept the Sloan block at the southeast corner of Twentieth ave. west, and Superior st. shortly before midnight Sunday, and for a time threatened to destroy the two-story structures. Four stores in the building suffered from the blaze. The total loss was estimated at \$25,000.

Gaining strong headway the flames spread rapidly westward to the Persons hardware store.

By the time the fire apparatus arrived, the Magnuson candy store and the Smith Drug Co., also were in flames.

Damage to the clothing store was placed at more than \$15,000 while the hardware store suffered a loss of approximately \$5,000.

The other two business places suffered losses largely through smoke and water. The origin of the blaze was not determined up to an early hour Monday.

### MAIN FIGHT ON MELLON BILLS OVER SURTAXES

Party Lines Being Broken Right And Left As Congress Discusses Revenues

MUST REACH COMPROMISE

Republican Leaders Do Everything Possible To Keep Faith

By DAVID LAWRENCE  
Copyright 1924 by The Post Pub. Co.  
Washington—The tax bill which has had a stormy progress through the Ways and Means committee of the house and which was rejected favorably out of courtesy to Secretary Mellon so that he might have a record vote on the 25 per cent surtax, now faces a more perilous situation.

Republican leaders like Representative Longworth who from the first saw the necessity of a compromise, have done all they could to keep faith with the administration but they realize now that unless a compromise is made at 25 per cent on the high surtax rates, not only will there be no chance at all for the 25 per cent rate recommended by Mr. Mellon but there is a likelihood the Democratic plan of 44 per cent will prevail.

Republican leaders wanted to report the bill out of committee with a 35 per cent surtax but the administration begged them to stand pat and give the bill a chance before the full membership of the house. According to men like Chairman Gresh who do not favor the 25 per cent surtax rate voted to report the bill to the house, but gave notice they could not support the same rates on the final vote. The administration felt that no compromise should be done at least until both houses had passed the measure and it was up in conference.

**NEED DEMOCRATIC AID**  
But the parliamentary situation is such that the Republican leaders can't get the house to pass a 25 per cent surtax and they are not altogether sure they can pull over 205 per cent. It all depends on whether any Democratic support is forthcoming. The Democrats met in caucus two days ago and 184 of them pledged themselves to stand by the Garner plan of 14 per cent surtaxes. Thirty or more Democrats would need only a handful of Democrats to put the bill through if they could only win some of their own ranks but insurgents, mostly from the west, are opposed even to 35 per cent and think the Democratic plan a safer one from a political standpoint.

The situation is almost unprecedented. While there is a good deal of broken right and left, and the line between Republicans and Democrats but between those who think they would be favoring the wealthy by too great a reduction and those who think they are stimulating business and industrial prosperity of the country by relieving capital of restrictions.

If the Republican leaders can get a 35 per cent surtax rate through the house, they would be lucky indeed, and if the senate sees the wisdom of Secretary Mellon's arguments the battle would be for a compromise between 25 and 35 per cent. There is going to be a compromise in the end and much of the jockeying being done now is for the purpose of attaining a maximum that is not too far away from Mr. Mellon's 25 per cent.

The senate, on the other hand, may prove more radical than the house. In any event the moves of the next week in the house will have an important bearing on what is finally accomplished. Curiously enough the main fight is on surtaxes as there is likely to be a difference of opinion as to whether the 25 per cent rate itself will be compelled to suggest changes in the other rates if the 44 per cent surtax is accepted and the Democrats likewise will have to alter their schedule if the 44 per cent rate is not approved.

For a compromise between 25 and 35 per cent, and an alteration in one rate makes necessary a change in the other features of the plan. Making tax bills on the floor of the house is a new experience for congress.

### Action Comes After Conclave With President

#### Queen Marie Seeks Mates For Children

By Associated Press  
London—Queen Marie of Rumania, maker of the royal marriages in the Balkans, is again hunting for a titled wife for her youngest son Nicholas, as well as a king's husband for her youthful daughter, Ileana. With this idea in mind, King Ferdinand and Queen Marie are to visit London and Paris in the spring to look over the marriageable youths and maidens of the nobility.

Meanwhile Queen Marie is making quiet inquiries in Italy regarding the possibility of winning Prince Humbert, heir apparent, to the Italian throne, for Ileana, the latter, it is understood, having shown some aversion to a union with King Boris of Bulgaria, whom her mother first picked for her.

The young and beautiful princess told her mother she would rather be the Queen of Italy than actually Queen of Bulgaria. Friends of the Rumanian royal family believe Ileana's marriage to the 26-year-old Italian crown prince would make an ideal family and political alliance, as Rumania and Italy are so closely linked in origin, language and ideals.

Queen Marie is known to cherish the idea of having Nicholas marry an Italian princess. She is said to believe that with Italy's assistance she could secure the vacant Albanian throne for the young couple, as Italy now is the dominant factor in Albanian affairs.

### M'ADOO BACKERS MEET IN CHICAGO

Conference Called By Chief Will Decide Eligibility As Candidate

By Associated Press  
Chicago—Supporters of William G. McAdoo, former secretary of the treasury, for the Democratic presidential nomination were here Monday from a majority of the states to decide on the request of Mr. McAdoo himself, whether his candidacy should go on in view of mention of his name in the Teapot oil lease investigation in the senate.

Mr. McAdoo also was here, but planned to go to the conference unless invited.

It was Mr. McAdoo who, after testifying before the senate oil investigation committee that he had no connection with the oil leasing and that his advice and support had been given to work for the E. L. Doheny oil interests, was the legitimate work of a legal oil lease investigation from Washington that he would ask his supporters, both within and without the Democratic party to meet and decide his fate.

McAdoo had been in the city since the race. He made plan his intention to leave his friends free to confer and decide the matter themselves.

#### Retirement Revives Rumors That Daugherty Will Give Up His Post

COOLIDGE ACCEPTS OFFER

Move Is First Break In Official Family Taken Over After Harding Death

Washington, D. C.—Edwin B. Denby has resigned as secretary of the navy and his resignation has been accepted.

After repeatedly declaring he never would quit the cabinet under fire from those who have criticized his part in the oil leasing program, the secretary notified President Coolidge that he was ready to step out. His decision followed a telephone consultation between the president and Mr. Denby in which all of the latest aspects of the situation were talked over in light of information passed on to the White House by Republican leaders in the senate.

Recently a number of the secretary's friends also have been consulted by Mr. Coolidge, and they are understood to have advised the president that they fully understand the embarrassment that might result in retaining Mr. Denby in the cabinet while the oil annulment suits are in progress.

**DEFENDED HIS ACTIONS**  
Not only as a party to the oil leases, having affixed his signature along with that of Albert B. Fall, but he repeatedly has defended his part in the proceedings and has declared publicly since the present controversy arose that he believed the contracts legal and would be willing to pursue the same course again.

It has been pointed out to the president that it might appear inconsistent to have a member of the administration holding these views remain in office while the administration itself, through its counsel, was moving in the courts to annul the leases on the ground that they were made without authority of law. For the same reason, there have been reports that Theodore Roosevelt also would retire as assistant secretary under Mr. Denby. Mr. Roosevelt, however, was part in the framing of the oil leases.

**ANNOUNCEMENT PUT OFF**  
The selection in favor of a resignation apparently was reached soon after Mr. Coolidge went to his office Monday morning but a formal announcement was deferred. E. T. Clark, one of Mr. Coolidge's secretaries, visited Mr. Denby's office to confer on what form the announcement should take. Mr. Denby soon afterward left the navy department by a private entrance, eluding newspapermen, and left word that for the present he would have nothing to say.

The secretary's retirement makes the first break in the official family Mr. Coolidge took over intact from the Harding administration. Mr. Denby was one of the original members of Mr. Harding's cabinet, having taken office on March 4, 1921.

This selection brought to that department for the first time in many years a man who knew by personal experience the viewpoint of enlisted men, both in the navy and in the Marine corps. He had served as gunner's mate aboard the converted cruiser, the USS Albatross, during the war in Spain, and through all ranks and grades from private to major in the Marine corps during the World war.

#### KNOW CHINESE AFFAIRS

Mr. Denby also had a background of personal information as to the situation in China and in the orient generally which he drew from ten years' employment in the international customs service in China when that service was directed by Sir Robert Hart. The service of Mr. Denby began during the time that his father, Charles Denby of Evansville, Ind., was American minister to Peking.

Through this personal knowledge of the Chinese customs situation, the navy secretary was able to be helpful to the special committee assembled at the time of the Washington arms conference, which dealt with the Chinese abstracts of the supplementary treaties. His executive function at the navy department was such however that the task of directing deliberations of American naval experts who helped frame the technical clauses of the naval limitation treaty developed upon Assistant Secretary Roosevelt.

**DAUGHTERY MAY FOLLOW**  
The retirement of the navy secretary revives rumors that the resignation of Attorney General Daugherty would follow within a few days.

A resolution relating to him and somewhat similar to that adopted some days ago asking for the resignation of Mr. Denby is pending in the senate and its sponsors are pressing for quick action on it.

## POSTOFFICE BEGINS DRIVE TO IMPROVE SERVICE TO PUBLIC

Cooperation Of Mailers Is Invited During Better Mailing Week

Observance of "Better Mailing Week" began here Monday in common with cities all over the United States. The purpose is to bring about a concentrated effort in the entire postal department to render service as nearly perfect as possible, also to invite mailers to acquaint themselves with the nature of the postal service, and to secure the fullest cooperation between the mailers and the postal department.

Careless mailing results in an economic waste both for the postal department and mailing public. At the Appleton postoffice, for example, there are received daily from 5 to 200 letters of incorrect, insufficient or unintelligible address. This does not take into consideration the large amount of mail that is to be forwarded.

At the first of the month hundreds of bills are sent out to persons without address, or incorrect addresses. Often mailers take for granted that the addressee is too well known to bother about giving a correct address, but forget that the person may not be known to all the sorting clerks in the postoffice. Postmaster Zuehlke pointed out. The clerks may know the person, but not his address.

The postmaster stressed the importance of a return card on the envelope and that of the street address on all letters. Some firms think it a confession of smallness to place the street address on their stationery, but in Chicago even such large firms as Sears, Roebuck & Company and Montgomery Ward company, have their street address printed on their stationery, in spite of the fact that these firms have their own mail wagons and call for the mail at the postoffice.

League Operation In For-  
um Address

Politics was the reason assigned by Dr. Nehemiah Boynton of New York why the United States is not in the international court in his address, "The World Court," at the People's Forum Sunday evening at Lawrence memorial hall.

"What is the reason America is not cooperating with us in this international undertaking?" Lloyd George of England asked the speaker. "Premier, is there any 'sauce' word as politics in the British dictionary?" He said no more and changed the subject.

The address was the closing number of the forum for this season. Frank J. Harwood presided. Prof. J. R. Boynton of the University of Wisconsin, and two violin solos were rendered by Prof. Percy Fullinwider. The audience was above the average in size.

When the American people rise up in their strength and give the law to Washington authorities then America shall find itself associated with the nations of the world in this court, the speaker declared.

**FAVORED BY PRESIDENTS**  
"As a matter of fact," said Dr. Boynton, "five presidents of the United States have expressed their confidence in the international court and desired that America should have its share in it. Some of the greatest secretaries of state we have known have lent their strength to it."

"The question is now before the authorities at Washington as to whether we may venture to join that tribunal. Aside from politics there is very little objection to it. Increase of population has brought the nations of the earth into such close intimacy and fellowship one with the other that new machinery must be devised for settling questions of judicial character."

"The idea of an international court was first voiced in 1305 by a Frenchman. In the seventeenth century another Frenchman conceived the same thing but the world was far from being ready for it. Then came the League of Nations."

**46 NATIONS IN COURT**  
"In 1914 when there was a tremendous need for an international court there was none and it was not until 1920 that arrangements for one finally were made. Forty-six nations of the earth joined this international court. We ourselves found difficulties. These difficulties will be generally admitted are visionary. At least Secretary Hughes, in a recent document, says there is no reason why we cannot associate ourselves in the international court."

"Now, I am aware of the fact that the league of nations is out of the running as far as the authorities in Washington are concerned and these conditions are visionary. At least Secretary Hughes, in a recent document, says there is no reason why we cannot associate ourselves in the international court."

"I then went in and found a library unequalled in vital documents pertaining to national activities in the past few years. I met a friend there, formerly of Montreal, who said he was chairman of the finance committee. He said he was responsible for the submergence of the league of nations' money."

"I inquired the size of the budget of the league, how much he was spending a year. He said it cost \$5,000,000 a year to operate the league and that a money came from 54 nations, each giving his proportionate share out of national treasury, the same as any her national expense."

**INCLUDES ALL BUT 6**  
"I found several things that interested me. I found 54 nations were the league and there are only 60 nations in the world. I found out the things not in the league. They were Italy, Russia, Germany, Mexico, and a few other countries in South America and the United States."

"I kept asking myself the question 'do you in America like your country?' How do you enjoy your isolation. Then I found out that one of 54 nations was Cuba and that Haiti was another."

"We had a representative there, but was not an official representative, was necessary for Washington to let out what the league of nations was. We had no authority there and were better off we had no representative."

They gave him a central seat in front balcony but of course he was the outside. He didn't see so very much of the working of the vital machinery or know very much about international relationships."

So I came away with these facts, my relationships in my mind and just wondering and I am wondering how it happens that the strongest in the world today, the young and most adventurous, finds itself peace and rest when 54 other nations are bound together in a great international enterprise for the benefit of the world."

## LOTS OF LAUGHS IN JUNIOR CLASS PLAY

Troubles Of Love-sick Newly-  
weds Provide Background  
For "Full House"

Ramona Sharp and Norman LaRoe as Mr. and Mrs. Howell, newly wed and love sick, are the leading characters in the junior class play, "A Full House," which will be played at Appleton theatre on Saturday, Feb. 23. A great deal of interest is being shown in the play at the school and it is expected that a large part of the audience will be Appleton people who are interested in the dramatic programs of the students.

The character leads in the play include Miss Evelyn Long as Susie, the big eyed maid of all work, Richard Tuttrill as Mr. King, the gentlemen clerk who is clever, witty and wise and Herman Brockhaus as the English butler who has a sense of humor. Ruby Moody as Daphne Charters who is engaged to Ned Brembrooke as played by Eugene Cole gives plenty of laughs as a result of their lovers' quarrels.

There is great variety in the rest of the cast. Miss Elizabeth Pfeil will be the exciting aristocratic aunt. Miss Minnie Van Wyck will be Mrs. Fleming, the hard hearted flat owner. Miss Florence Schultz will be Vera Vernon, a real vamp. There are three policemen. Roman Wenzel, Clarence Weiss and Harold Breen take the parts of the officers of the law.

## BETTER MARKING SYSTEM FOR STATE'S HIGHWAYS

A new roadway marking system is being worked out by the state highway commission in connection with marking the new 2,500 miles of state highways.

The signs will be more easily read by the traveling public, as they will be posted on metal standards along the shoulder of the road instead of on telephone posts at roadside fences. The highway numbers also will be larger. Night driving especially will be convenience by the improved sign system, since the light of the headlights will fall more directly upon the new signs. Hereafter searching for the signs with spotlights will be unnecessary.

## FOUR DAY SHOWING OF "MOVIE" FOR MAILMEN

"The Mail Man" will be presented at the Majestic theatre, Monday, Feb. 18, and Tuesday, Feb. 19, at 8 and 6 for the benefit of the clerks and carriers of Appleton postoffice. Ralph Lewis is in the leading role and the picture is replete with the human touches which fill the life of this most interesting character.

## SUPERVISORS END SESSION SATURDAY

The old county board of supervisors ended at 11 o'clock Saturday morning after disposing of a quantity of unfinished business. Terms of all members expire this spring and elections will be held on April 1.

Supervisor F. J. Harwood of the First ward, Appleton, announced that he will not be a candidate for reelection. He said he appreciated his relationship with the county board and admitted that he was surprised at the large amount of work the board had to do as well as the manner in which it disposed of it. But his business relations prevented him from giving

Mr. Harwood's tribute to the county board produced a hearty applause. A vote of thanks also was tendered George F. Fiedler, county chairman, for the fair and efficient way in which he presided at the sessions.

## Gum Chewing Aids the Teeth

You have the authority of doctors and dentists for this statement. Your own experience will prove it, if you will use WRIGLEY'S after every meal.

The following quotations from a recent work on teeth and health are worth remembering:

"Dentists have found that the exercise of gum chewing brings about a better nutrition of the teeth."

"The cleansing action of the gum between the teeth helps to keep them free from the particles which lodge in the crevices and cause decay."

The busy man—or woman either—rarely has time to clean the teeth after eating. Yet they should be cleaned, and

WHAT IS AHEAD?

There probably has never been a time in the history of the country when politics was in so chaotic a state as today. Everything is marked with uncertainty. The pulse of the nation is below the line of visibility. The trend of public opinion is obscured. Most of the landmarks that served to delimit the campaigns of the past have been swept away. An administration which three years ago went into power on an unprecedented avalanche of votes is completely shattered. Its future, if it has a future, rests in the hands of a single pilot, whose ship of state has sunk to the water's edge and is surrounded by prodigious wreckage.

Probably at no previous time has the short space of three years worked so profound a change in the fortunes of a great political party. In addition to its legislative and administrative betrayals of trust, the "solemn referendum" of 1920 which was hailed as an overwhelming ratification of its foreign policies, commencing with the iniquitous intrigue of that little band of conspirators in the senate five years ago, stand discredited. Isolation is proved to be futile and false. The relentless and momentarily successful campaign to discredit the great war president and to defeat his peace program is seen in its true light. Another referendum would, we fully believe, repudiate the isolationists as emphatically as they were commissioned in 1920. The growth of sentiment in favor of American participation in international concert for peace is unmistakable. The conviction that we did run away from the job after the war is mounting. We do not think it is a risky prediction that its gathering momentum will bring us into the League of Nations on some basis.

Public dissatisfaction with the record of the outgoing administration is, of course, accentuated by the revelations of official treachery and corruption, so colossal, and inevitable we believe, as to make the name of the Republican party synonymous with all that is base and sordid and venal in politics. Can Coolidge save it from obliteration, from the full punishment it ought to receive and so richly deserves at the hands of outraged voters?

Never since the Civil war has there been such an opportunity for a militant Democratic party as today. With a statesman for a leader who possessed the confidence of the people, it could wipe the Republican party off the map. Its great misfortune, and we think it is a national misfortune, is that it has no such leader. Canvas the rolls from Maine to California and no name appears which is above the level of the struggling, fighting, self-seeking politicians who are in charge of its affairs.

What is to be the result? The question is fraught with momentous consequences. Are we to have a new party, is La Follette to come to the fore and at last realize on his years of warfare upon the vested interests and capitalist class, or is Calvin Coolidge to weather the storm and keep the ship out of those uncharted waters of radical experiment? The man who can answer these questions is a prophet indeed, and yet they will be answered in the fleeting time of a few months.

LEGISLATORS' SALARIES

At the election in April the voters of Wisconsin will decide whether the salaries of members of the state legislature shall be increased from \$500 per term to \$750 per year. The amendment has the unqualified support of the Wisconsin State Federation of Labor, and this organization is now urging the passage of the measure on the ground that the low salary excludes to a large extent the service of farmers, workmen and others of small means.

The justice and the truth of the argument is quite obvious and it now appears that only popular reluctance to vote for any amendment may result in the failure of this one. Usually a proposed amendment has no organization with means to bring it to the attention of the public, and the voter becomes aware of it for the first time on entering the voting booth. The result is in the majority of cases he seeks safety in voting no, or in passing it without a vote.

However, in the present instance the amendment is a simple one readily understood. Because of the rejection of one intended to accomplish the same purpose in 1920, which would have given the legislature the power to fix the salary of its members, the language was changed to fix the amount definitely at \$750 per year or \$1,500 per term.

We believe it is not merely a matter of interest to the farmer, the workman or the others of small means, but to every citizen of the state. It is a sound principle of government that those in the public service should be paid and adequately paid for their services. It is not always applied but it is sound nevertheless.

HELPING THE FARMER

According to federal statistics farm failures increased from 5.5 per cent of all bankruptcies before the war to 14.4 per cent in 1920. In the winter wheat region the proportion increased to 25 per cent, and in the spring wheat country to 48.9 per cent. These farm bankruptcies were especially high in Iowa, Kansas, Nebraska, Colorado, North Dakota, South Dakota, Montana and Idaho—ranging from 32 per cent in Nebraska to 78 per cent in North Dakota. These states represent the heart of the midwest farming area. A variety of causes enters into these farm failures, crop disaster, price collapse, unsound and fragile finance and other hazards. Underlying all these causes is one of controlling importance, namely, remoteness from market. The cost of transporting farm products to market in high freight rates was a severe economic burden. Likewise, the cost of what the farmer purchased was increased heavily by transportation charges due to his remoteness from market. Regardless of whether rail rates are reduced, it is evident that the position of the midwest farmer will be strengthened enormously by moving the Atlantic to the heart of the continent, through the opening of the Great lakes to the ocean.

Not only have the farmers suffered by reason of these conditions, but the north-west railroads have suffered with them. While the great eastern roads have been restored to practically a pre-war basis in the matter of earnings, the strongest roads of the northwest have far from recovered. Seaboard terminals, or nearness to market, would seem to be the explanation of regained prosperity in the one class of railroads, and remoteness from market the cause in the other class.

President Coolidge's program for immediate relief of farmers in the northwest has been well received. Undoubtedly it is a practical and effective means of assistance. All of the capital for the \$10,000,000 banking corporation which is to be used in reinstating impaired bank facilities and in the extension of favorable credit to the farmers has been subscribed. Other steps proposed by Mr. Coolidge are being taken, so that the prospect of tidying agriculture in the midwest over to firmer ground is decidedly encouraging.

It must be borne in mind, however, that these measures are only temporary. Mortgages will not be lifted nor other indebtedness liquidated. Nor will the blight of the non-partisan league and its fantastic program to which the ruin of at least North Dakota is directly traceable. There remains the problem of putting agriculture in this vast region on a profitable basis, not only next year but in succeeding years. To a large extent the farmer can help himself through the adoption of business and technical practices that will be recommended to him, through greater attention to co-operative marketing, etc. After all is done that can be done along these lines, however, there will be left the problem of his remoteness from market. Even if the railroads could stand a material reduction in rates on agricultural products, it would not offer a complete solution. The best guarantee of this lies in moving

the Atlantic seaboard a thousand miles into the interior. Completion of the St. Lawrence seaway project will in the long run bring the midwest farmer greater prosperity than all other government and private assistance. Higher tariff will do no good, nor will any other government hot-house schemes. It is an economic problem, and must be handled as such. Moreover, it must be taken up and solved, for a restoration of agricultural prosperity is today the greatest single domestic necessity of the nation.

SUNSHINE AND STRONG BONES

An infant is likely to have rickets in some degree, unless the infant enjoys much more sunshine than most infants are permitted to have in cities. There are in direct sunlight certain rays which are invisible, called ultra violet rays, because they are beyond the blue and violet rays of the spectrum, these ultra violet rays are certainly great stuff for the little shavers, who, even among people not actually poverty stricken, nor even unimpaired in the ordinary sense of the word, are too much "protected" from sunlight in all seasons. I do not mean to suggest that a baby be exposed to sun-burn, but at least as much exposure as his mother can stand and needs the ultra violet energy for the business of growing strong, healthy bones, not to mention other appurtenances which thrive when there is no sunlight famine.

The prevalence of rickets among negro children in the cities is probably attributable to the lack of sunshine and to the fact that the pigment of the negro skin shuts out the ultra violet rays even when there is a little sunshine for the baby. I hope no reader will confuse ultra violet rays or light with so called "violet rays" toys. Of course, there is nothing but amusement in these toys. Ultra violet rays are not a light apparatus for the gullible. Ultra violet rays, as a physician, can be safely used only by a physician. Considerable ultra violet light is obtainable from the arc lamp, but the mercury vapor quartz lamp is more practical for therapeutic purposes. Infants with rickets are greatly benefited by treatment with the rays from the mercury vapor quartz lamp, when sunlight cannot be had. Ultra violet light brings about the necessary deposit of calcium in the bones. Glanzlicht, hence the use of ultra violet light from the therapeutic apparatus. Sunlight coming through windows loses much of its healthful influence. In the ultra violet apparatus it is necessary to cool the light by means of a constant stream of water across the lens, otherwise the treatment would be unendurable. Such treatment, I repeat, can be safely administered by no one but a physician.

Animal experiment as well as observation by the practicing physician seem to show that ultra violet energy (let us say, since these rays of light are invisible) is essential for the normal metabolism of the infant, for normal growth in general and for strong bones in particular. If the living conditions are so bad, as they often are in cities, that the infant cannot have the advantage of natural sunlight, then treatment with ultra violet light from light, then treatment with the electric arc or some such artificial source as the mercury vapor quartz lamp is a great benefit to the infant who fails to thrive. These artificial substitutes, however, are never as good as the original source of all ultra violet energy, sunlight.

QUESTIONS AND ANSWERS

They are more than...  
I am one your many admirers following. I have derived so much benefit from reading your fine articles, as well as much inspiration. You give one a more wholesome and cheerful outlook on life, even when you might seem to some sarcastic. I am an expectant mother. Can you give me any particular instructions or advice?—Mrs. C. W.  
Answer—Sometimes I wish they were only followers. They make a noise like chasers. Glad to send you a letter of instruction and advice, which I think will fit the character you give me, if you will accompany your request with a stamped self address envelope.

LOOKING BACKWARD

TWENTY-FIVE YEARS AGO  
Monday, February 20, 1899

John Thieken returned from a business trip to Chicago. Dr. S. S. Willis, who was called east by the death of his sister, returned to Appleton. Mrs. Fred Hammel and Mrs. Fred Loeb returned from a visit with Milwaukee friends. Carl Wells, who was at Madison during the session of the legislature, spent Sunday with his family in Appleton. The new firm of Kampe & Heideman dissolved partnership. Mr. Kampe was to continue the business. Andrew P. Ballard, 37, was found dead in bed at the home of his son, A. W. Ballard, at Omro. Mr. and Mrs. Samuel Marshall entertained a group of friends at their home last evening. Company G basketball team was defeated at Ripon by Company D team by a score of 7 to 14. The Elston Jubilee Singers gave a concert before a large audience at the opera house. The Continental was conducting a \$10 suit and overcoat sale, giving their patrons the choice of any garment in their store. Assemblyman Daggett of Outagamie was getting a great deal of free advertising all over the state because of the bill he introduced in the legislature against the sin of tight lacing.

TEN YEARS AGO  
Monday, February 16, 1914

Charles W. Fish of Elcho was in Appleton on business. Dr. Samuel Plantz occupied the pulpit of the Methodist church at Grand Rapids the day previous. Mrs. H. J. Brooks of Nelsville was the guest of Dr. and Mrs. E. H. Brooks, University. W. G. Jamison was elected president of Appleton Fair association at a meeting of the board of directors. D. P. Steinberg resigned as secretary and the vacancy was to be filled at a later meeting. The Rev. W. D. Marsh was to deliver the annual address at the annual meeting of Outagamie County Pioneer association on Feb. 22. There was very little mailpoet. Wisconsin according to a statement issued by the state board of health. The explosion of a dryer at the Thilmany Pulp & Paper company's plant at Kaukauna resulted in the injury of A. Brooks, an employee, and considerable damage to the machinery. The Knights of Columbus secured J. Howard Brown of Chippewa Falls for an address at their Washington party on Feb. 19.

We have many bitter memories, but the most haunting of all is that of the sentence we used to speak occasionally in years gone by: "Make mine a cigar this time."

We also can remember reading a sign, "If drinking interferes with your business, quit your business." Because a lot of folks observed that sign, they now have quit both.

Bella Donna has hung a red flag in front of her father's cellar. To who liberty and long life, keep out! Also, she says, a ring on the hand is worth two under the eyes, and be ware, you independent bachelors! Now page the lantern Diogenes used in searching the streets of Athens for a Man.

MISS DIOGENES

My father makes such awful stuff. One drink is always quite enough. That's not the way I'll get a-ridge. I haven't luck in anything. I'd surely like to drink a bit. But I will not be overthrown. They'll carve no "Miss" on my tombstone.

As the old Bishop used to shout from his pulpit, "Lord, give us Men!"

"Ah! Cassius Has a Lean and Hungry Look!"

"Who's them hungry lookin' fellows bunched over on the corner?" asks the curbstone bum.  
"Oh, they's county board members going down to Little Chute to Casey's blowout," the traffic cop told him.  
"What's Casey runnin' for anyway?" asks the bum. And the dern fool winks at the cop.

What a nice thing to have been a bee in the days of Noah, gushes Mawruss. With only a pair of each species, each flea could have had a whole dog for himself!

From the foregoing, it is possible to prove the statement that two can live as cheaply as one—the dog and the flea. But did objects when he has to support a whole tribe of them.

### INCLUDE CLINIC AMONG FEATURES OF WINTER FAIR

Executive Committee in Charge Of Arrangements Met Sunday Afternoon

Special to Post-Crescent  
Kaukauna—A meeting of the executive committee and the chairman of subcommittees which are making arrangements for Kaukauna's mid-winter fair to be held March 12 and 13, was held Sunday in the council chamber. Definite progress is being made by the committee for what is expected will be a fair for the entire county. Besides other features of the fair previously mentioned plans have been made to hold a baby clinic in the rooms in the municipal building. The fair committee is negotiating to have three specialists in Kaukauna during the two days of the event. One doctor will have charge of the baby clinic. Another will be a specialist in social diseases and the third will be a specialist on bones and their formation. The auditorium has been allotted next space for booths and from present indications there will be a great shortage. Some Kaukauna merchants will have to forego the opportunity of displaying an exhibition of farm products. School exhibits, according to present arrangements, will be on display in the high school corridors. Members of the county board will be entertained on one of the days. Supper and social entertainment will take place in Elk hall. Efforts will be directed within the next few days to securing donations for prizes to be given at the fair. After that task has been completed it is expected a budget for the entire event will be worked out.

### County Deaths

HENRY SIGL  
Special to Post-Crescent

Isaac—Funeral services were held at St. Sebastian church at 10 o'clock Monday morning for Henry Sigl, 42, who died Friday morning at Sheboygan. The Rev. J. Barthelme was in charge. ### WIESLER'S PLAY DRAWS BIG CROWD FROM RURAL AREA

Audience Of 175 Sees Production At Sunny Slope School

Special to Post-Crescent  
Greenfield—People from five school districts, making an audience of about 175, attended the play given by the young people of district No. 6 at Sunny Slope school Friday evening. The play, "Anniversary Day," was written by Nic Wiesler, teacher of the school, and showed a pleasing success. The cast showed talent in staging the production.

Schools represented in the audience were Triangle, Pleasant Corners, Happy Valley, Cedar Grove and Fillington district No. 1. There were numerous sleighs and there were numerous others who made up parties.

The proceeds amounting to \$52.70 will be turned over to Norma Schreder, a pupil who is treasurer of Sunny Slope school, and will be used for school needs.

Mr. Wiesler will immediately revise his play and have it edited. He is satisfied that he has a play that will please rural taste and desire for entertainment. He also asserts that for lack of appropriate plays the rural districts are being deprived of enjoyment as most teachers find it a difficult task to get rural plays.

Mr. Wiesler is in a contest held by the Philadelphia Educational Film company.

Marvin Schroeder, son of Mr. and Mrs. Erwin Schroeder, injured his left leg when falling from a snow bank at his home Wednesday.

Eleanor Schmitt, who is employed in Appleton, spent a few days of last week at her home here.

### 50 AT SURPRISE PARTY FOR CHAUNCEY ADAMS

Special to Post-Crescent  
Okeoka—A surprise party was given at the home of Chauncey Adams. About 50 relatives and friends were present. The occasion was his birthday anniversary. The evening was spent in dancing. The Skandore brothers furnished the music.

Chairman Frank Appleton is attending the county board sessions this week.

Mrs. Frank Appleton has returned home after spending several weeks in St. Elizabeth hospital, Appleton, where she submitted to a serious operation.

Mike Van Natta, John Van Havel and Henry Goffard are hauling gravel to build silos in the spring.

Simon Webster was sentenced to ten days in jail for being drunk and disorderly in Green Bay.

August Bauman was the first to report seeing a robin this year. On Thursday, February 7 he saw it eating seeds in J. W. Cornelius' barn and called others' attention to it.

Mrs. Sarah Smith, who died at St. Vincent hospital, was buried from the Episcopal mission Sunday afternoon.

The Rev. William Watson was in charge. Her two little boys had pneumonia and her daughter was laid up with a broken arm at an Indian school in the west and were not able to attend their mother's funeral.

Mr. and Mrs. Nick Romanenko left for Chicago Friday where they will make their home the rest of the winter.

Mrs. J. S. Charles will teach at district No. 3 school to fill out the term for Mrs. Nick Romanenko.

A social for the choir was given at the Rev. A. A. Visser's residence Monday evening.

The Polish Catholic church in Milwaukee donated \$500 to the new Catholic school here.

### Graduate Nurse Finds "The Perfect Remedy"

Graduate of National Temperance Hospital; Tells of Remarkable Cases Where TANLAC Has Proved Effective.

"From my long experience as a professional nurse, I do not hesitate to say I consider TANLAC the most efficient and natural stomach medicine and tonic to be had. It is undoubtedly Nature's most perfect remedy." Is the far reaching statement given out for publication, recently by Mrs. I. A. Jordan, Seattle, Wash., a graduate of the National Temperance Hospital, of Chicago.

"I have used TANLAC often in treatment of my patients and my experience has been that for keeping the stomach, liver, kidneys and bowels functioning properly, and for toning up the system in general, it has no equal."

"About a year ago I had a lady patient who could not eat. I got her started on TANLAC and by the time he finished three bottles he was eating ravenously and had regained sufficient strength to return to work."

"These two instances are typical of my experience with TANLAC. My confidence in TANLAC is unlimited. TANLAC IS FOR SALE BY ALL GOOD DRUGGISTS. OVER 40 MILLION BOTTLES SOLD. ACCEPT NO SUBSTITUTE."

## BOARD CONFIRMS APPOINTMENT OF 40 INSPECTORS

Ten Dance Halls Have Licenses  
To Operate—Collect  
Back Taxes

Approximately ten dance halls are at present operating under the county dance hall ordinance since it went into effect a month ago. Licenses issued to these by the county chairman were approved by the county board of supervisors at its closing session Saturday. The board also appointed about 40 dance hall inspectors who will supervise public dances. Each inspector must furnish a bond of \$500. He will have the authority of a deputy sheriff and his compensation will be \$5 a night.

The following licenses were approved: H. A. Brandt, Black Creek; John Lamers, Little Chute; John P. Watry, Little Chute; Frank Pellor, Bear Creek; VanBuren Hall, Appleton; William VanBuren, Appleton; Kimbly; Appleton Light Infantry company; Armory G. Louis Schroeder, Rainbow Gardens.

Between sessions of the county board, licenses are issued by the county chairman at the rate of \$10 each, and individual dance permits are issued by the county supervisor at \$5 each.

The dance hall inspectors are as follows: J. S. Charles and M. L. McCormick, nominated by P. R. Appleton, Onondaga; Charles Peebles and L. J. Manley, nominated by I. J. Werner, Ellington; Theodore Pennings, William Kiefer and Frank Conner, nominated by John W. McHugh, Freedom; James E. McCabe and Edwin V. Hart, James E. McCabe and Edwin V. Hart, nominated by P. H. Ryan, Second ward, Appleton; Frank Wagner and Edward Ahrens, nominated by Frank J. Schroeder, Center; Arnold Krueger and David Ritchie, nominated by William Hutchinson, Maple Creek; G. L. Chamberlain, George Vogel and Edward Knappling, nominated by F. A. Grant, Grand Chute; James Miller and Virgil Poole, nominated by David Hodgins, Hortonville; William E. Smith, nominated by Joseph E. Bayer, Third ward, Appleton; Fred Ashman, nominated by D. D. Zocholl, town of Black Creek; Henry Blohm, nominated by George F. Fisher, First ward, Seymour; R. A. Schelling, Ransom Griswold, E. E. McNally, Wesley Prentice and William Witt, nominated by Clifford Bottrill, Dale; Theodore Mielke, nominated by Fred Drephal, Cicero; Ed Krueger and Ed. Franz, nominated by Joseph T. Doerflinger, Kimberly; Roy H. Manning and Frank Reinke, nominated by A. M. Culbertson, Greenville; Forrest Williams and Edwin Reinke, nominated by Fred Reinke, Bear Creek; John Bunkelman, nominated by William Beck, Second ward, Seymour; Henry Krickenberg and Rudolph Westphal, nominated by Charles Schultz, Hortonville; Peter Hoffensperger and John Berghuis, nominated by Henry Janssen, Grand Chute.

Upon the resolution of Supervisor A. M. McClone, the board voted to send flowers as a message of sympathy to Dr. F. P. Doherty, county physician, who is ill.

Approximately \$2,000 in back taxes were ordered to be collected from the city of Appleton, the village of Kimberly and the town of Buchanan. The largest item was \$1,625.25, which is due from Appleton. The board also ordered the village of Hortonville to pay the difference between 25 per cent, which it had paid, and 40 per cent, which it should have paid on a bridge that was built there a number of years ago. The county had agreed to pay 60 per cent of the cost. The amount that was due from Hortonville was \$1,468.40, which represents 40 per cent of the cost. Only 25 per cent, however, was paid.

## "Boss" Pays For Dishes Broken In Restaurants

Have you ever wondered who pays for the broken china in restaurants? Have you ever broken a dish in a restaurant with only six cents to spare besides the price of your food, and sat in agony wondering what you were going to do and say if they asked you to pay for the breakage? Most everyone has had some experience of this kind, but few have solved the question.

At Snyder's restaurant the management stands all the loss. Of course this doesn't mean that a person can get funny and tear up the place, littering the floor with broken china and glassware. In that case most managers would resort to the plates. Of course many funny things happen in a restaurant that are not the fault of the patrons. The waitresses are just as apt to break dishes as the customer. In one case a girl bumped into the soda fountain while she was carrying a tray of glasses, about 20 in all, and smashed every one. They "clattered" the broken pieces, but the boss saw them out there and naturally questioned. The only response was "Oh we broke a couple of glasses, that's all. And the answer was accepted.

The girls usually are not required to pay for broken china, said a waitress at the College Inn, nor are the customers. But then, she said, there is little breakage, because care is taken.

At the Baltimore Dairy Lunch an employee said that in cases where the breaking of china is the fault of the waiter, he must pay for it. A customer is never asked to pay for any china that he breaks, unless the waiter added he is "lit up" and feels like throwing things around. Then he is asked to "come across." Outside of that, an accident is an accident.

At the Conway Coffee shop the waitresses are asked to pay for all china that is broken carelessly by them, but the rule is never strictly enforced. Most of the waiters are careful of the china. They felt that the rule was more of a warning to be careful.

In some of the places where china or glassware is broken, the waiters

and waitresses know how to get rid of it before anyone sees it. It can vanish from sight almost miraculously, they assure you. Anyway, in few cases, and they made to stand the loss, no matter whose fault the breakage is.

## MAY GIVE START TO PRESIDENTS' CLUB

Meeting Of Civic Leaders Will  
Be Called To Consider  
State Contest

Presidents of all civic or social service organizations will be asked to attend a meeting next week at the request of Louis Bonini, chairman of the community welfare committee, of the chamber of commerce. And out of this gathering may grow a president's club, group similar to those which are simplifying the community work in other cities.

The call will be issued to discuss Appleton's participation in the better cities contest of the Wisconsin Conference of Social Work, for which a prize of \$1,000 is offered. This city cannot enter the contest unless all such bodies join forces to work for the ideals set forth in the contest rules.

There has been some agitation in Appleton for a president's club because this is the means of coordinating community work, preventing duplication and utilizing the best thought and experience for the good of the city.

Formation of a home owners association such as the American Lumberman is advocating, also will be considered.

Aloys Fischer has returned from a lumber camp near Miles, Wis., where he injured his hand. He had been working in the woods the great part of the winter.

## 20 MILES AN HOUR IS SPEED LIMIT ON TRANSPORT BUSESSES

Attorney General Rules Buses  
May Not Travel Faster  
Than Trucks

Impeded travel of motor busses is expected as a result of a ruling of the state attorney general's department which finds motor busses subject to the same rules and regulations as prescribed for trucks by the motor vehicle act.

The ruling is expected to have a far-reaching effect, and the importance of it is that busses placed on the same level with motor trucks are limited to 20 miles an hour, instead of 30 miles as other automobiles. The purpose of the regulation, the opinion stated, was to protect the highways against destruction from heavy vehicles. The ruling was requested as a result of complaints last fall from a number of persons following reported accidents on a motor bus line.

One of the state departments is expected to notify county peace officers and request strict enforcement of the statutes. Employers or operators of bus lines, the ruling held, are subject to prosecution under the motor act if their drivers through express or implied instructions violate the act. It was said if a schedule of busses is such as to cause a speed in excess of the state regulations, the operator is subject to prosecution. Otherwise the driver can be prosecuted.

## TWO SONGS COMPETING FOR POPULARITY HERE

"Dream Daddy" and "Linger Awhile" are the two best bets with sheet music dealers at the present time, for these two songs that have been the most in demand. "Lonesome and Blue" by Edwin Tilton is not as popular as it has been, although a few people still are asking for it. This piece lasted approximately eight weeks with record breaking sales during this period and will probably dwindle along for a few more weeks.

"Blue Grass Blues" and it isn't hard to tell what region this song is written about. "When Lights Are Low," and "Somebody Stole My Gal" are other songs that demand more attention than just being listed among popular pieces.

The most popular pieces of sheet music are: Meyer-Seeger—Skeezix, Dream Daddy, Linger Awhile, Lonesome and Blue, When Lights are Low, Irving Zuehlke—Just a Girl That Men Forget, Linger Awhile, Blue

### LETTER FROM JOHN ALDEN PRESCOTT TO SYDNEY CARTON, CONTINUED

I stood around, Syd, and tried to look interested in the baby but, honestly, all I could think of was that money. As far as Leslie was concerned, however, I might have been a table or a chair. Finally little Jack stopped that raspy cough and breathed easier. She then turned to me and said curtly, "I'm tired. I shall lie down for awhile."

"But, Leslie," I expostulated, "please tell me if you got the money from your father. It is absolutely imperative if I wish to hold my position with Bullock that the money is turned back into the general fund today."

"All right," Leslie said, "I'll give you the money," and picking up her handbag which she had dropped in the room when she went to care for the baby, she opened it and pulled out a roll of bills.

You can imagine my surprise, Syd. I could not and still cannot understand why Leslie should have cash instead of a check, but I was happy enough to get the money in any form. With an exclamation of joy I stretched out my hand for it when she drew it back and said, "Wait a minute."

In a few minutes she came out and handed me 12 five hundred dollar bills. As I felt the peculiar texture of our American money in my hands a cold perspiration broke out all over me. For a moment I could not speak and then I rushed to take

her in my arms. Something in her face stopped me and I stammered my thanks. "Leslie, dear girl, you surely know that I appreciate what you have done for me. I know how hard it was for you and I certainly will pay your father back very soon. Is he better?" "Yes, but he is not able to see anyone yet, even me," I did not know Leslie's eyes could be so steady.

"Then your mother gave you the money. How kind of her. I'll write her a letter and tell her so." "Don't do that," she exclaimed. "I told mother that you did not know I was asking for the money. I said you thought it was some money of my own."

I tried then to put my arms around Leslie, but she pushed me away not too gently. "I am very tired, John," she said, "and I expect you are in a hurry to get away to the office with that money."

"But dear, I haven't kissed you. I haven't told you what a wonderful wife I think you are." "That will keep, John." Her voice seemed very weary. For the first time in my life I saw Leslie's lips take a cynical curve as she turned toward her bedroom.

I have managed to get out of a very tight place, Syd, but I'm not sure that I haven't lost something of great value that I shall never find again. (Copyright, 1923, NEA Service, Inc.)

### Adventures Of The Twins

#### The Dusty Miller

"I'll have to leave you for a few minutes," said Daddy Gander to the Twins. "I must go up and stop that fat old miller from making so much dust and dirt while Mother Goose is away."

The magic dust-pan had shrunk up again to its proper size and Daddy Gander tucked it under his arm. "Make yourselves at home," he said. "You'll find everything complete, from rough towels to smooth towels in the bathroom to coffee-tea, cups in the dining room. Goodbye."

"Oh, wait a minute," cried Nancy, and she dived into the tiny kitchen of her new Christmas-tree house and came out again with a brand new broom. "We're going along, Nick and I are, aren't we, Nick? We're going along to help you clean up after the dusty miller before Mother Goose comes home, so she'll find everything spick and span and not scold."

"Well, well, well," beamed Daddy Gander. "I certainly do appreciate that. Come right along. We're going in off they went to Poppleton Run's mill."

On the way they passed the house that Jack built. And Jack's mother was out on her porch. "Look a daisy, me! What a mope," she declared. "No sooner had I put my pail away after my morning's rubbing when piff! poff! Along comes a great cloud of flour dust and chaff like white soot, and settles over everything. The miller ought to be sued."

And they passed the shoe house of the Old Woman Who Had So Many Children. "Who had? And there she was!"

"Hoitytoity!" she was saying. "All this dirt, and only an hour ago the children and I got our shoe-house nicely polished, as we are going to have company! The miller ought to be jailed!"

And so it went. Hereover an Mother Goose Land, or I should say since Mother Goose was away, everyone in Daddy-Gander Land was so put out that nobody thought of being specially civil to the Twins.

That's always the way. Were so busy bemoaning the horrid things that nice things pass by us unnoticed. And we do lose a lot by it. But anyway!

Daddy Gander and his magic dust-pan and the Twins and their broom finally did reach the screaming, groaning, clattering, grinding mill, with flour dust coming out of all its windows, and went inside.

And what a sight met their eyes. No wonder the chaff and flour dust were flying so. Poppleton Run, the fat old miller, was sound asleep, and snoring. And every time he snored out he blew a great cloud of flour dust all over town.

Daddy Gander and the Twins got everything brushed up finally, but by the time they got the old miller awake and everything, it was time for tea.

## HIGHWAY BOARD OF COUNTY VOTES ITS BELIEF IN HIRST

**Calls Attacks On State Highway Commissioner As Political Trick**

Regretting the attack upon A. R. Hirst, state highway engineer, by one of the members of the state highway commission and other persons, the county-state road and bridge committee of Outagamie county Saturday expressed its confidence in Mr. Hirst's ability and integrity. The charges against the engineer referring to his alleged dictatorial tactics, were branded, by the committee as the tricks of petty politicians.

Following is the resolution: "Whereas, in view of the unwarranted and unmanly attack that has been made against Mr. A. R. Hirst, Wisconsin State Highway Engineer, who after fifteen years of faithful and untiring efforts has placed Wisconsin in the front rank as a good road state and who is considered second to no highway engineer in the United States, we deem it our duty to state that the attack made on him by petty politicians and express our confidence in him, therefore:

"Be it resolved, that we, the Outagamie County Road and Bridge Committee, hereby express our confidence in Mr. A. R. Hirst, State Highway Engineer, for his honesty and ability. We have found him fair and honest in all dealings with us and he has at all times, guarded the interest of the state.

"Be it further resolved, that a copy of these resolutions be forwarded to the Governor of Wisconsin and to the Wisconsin State Highway Commission and to all County and Road and Bridge Committees of Wisconsin."

The resolution was signed by P. H. Ryan, chairman, A. M. McClellan, A. T. Anderson, M. M. Bottrell and Charles Slevet.

## Plenty Of Realism In "The Fir And The Palm"

Elizabeth Bibesco follows the example of several other present day writers in naming her new novel, "The Fir and the Palm," published by G. P. Putnam's Sons, from a pungent bit of poetry which strikes the key note of the story. Helene, the German poet wrote of the symbolic Fir-tree on the icy northern heights dreaming of a Palm-tree mourning alone on a ridge of burning sand. Princess Bibesco writes of a husband who fears to reveal his passionate love for the young girl he has married, while his wife remains ignorant of his love for her—until it is too late.

"The Fir and the Palm" is the story of an eager, lovable girl, rescued from the poverty of Italian boarding-houses and a gambler father, by a reserved and self-disciplined Englishman who is considerably older than herself. Helene feels only gratitude and friendliness toward her husband who realizes her ignorance of his intense love for her. He hesitates to make her aware of it because, he explains to his friend, "being married to her gives me so many opportunities, and it seems unfair to take advantage of them."

In the natural course of events, Helene falls desperately in love with another man, and the only thing that saves her is that Toby has the bad grace not to fall in love with her, although everyone suspects him of it. To tell how matters adjust themselves, how the husband comes out of his shell, would be to give away the story. But people who prefer realism to sentimental impossibilities, will not be disappointed.

The book is a record of worldly life and is told in an amusing manner by one well qualified for her task; a novel by one whose father was a British prime-minister, whose mother, Margot Asquith, is one of the figures of the time, and whose husband is an ambassador. Most of the action takes

place in "Helen's Court," a proud old country house in England, the gathering place of sophisticated English society. Smart society women, clever diplomats, beauties, stuffy ambassadors, march through the pages of the book, each contributing his or her bit of worldly philosophy full of significance for those who read between the lines. It is not a romance, nor does it preach a sermon; but it pictures a cross section of the life with which the author is familiar. It is the first long story by Elizabeth Bibesco, and those who know her collections of short stories, "I Have Only Myself to Blame," and "Balloons," will be eager to read her first venture into a field of fiction new to her.

**REGULAR MEETING.**

## 'BUTTERFLY' IS IN GREATEST DEMAND

**Kathleen Norris' Book Best Circulator in Library, Report Shows**

Kathleen Norris' book, "Butterfly," is still the most popular book at the library, for in her latest story Miss Norris has not only created her usual background, but deals with a theme that interests many people. It is the story of a girl with a career as a violinist and of her matrimonial troubles.

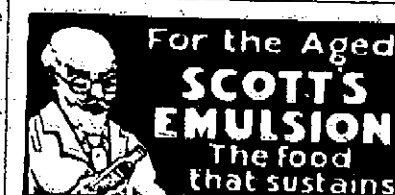

Second to this is the "Call of the Canyon" by Zane Grey. Mr. Grey's books are popular at any time. Because Lincoln's birthday anniversary was this month "The Life of Abraham Lincoln" by Charnwood has been much in demand. The "Life of Christ" by Papini still has an enviable record as one of the most sought after books in the library.

The children were mostly interested in Fairy tales last week, though some boys asked for the "Boy Mechanic," a book written from the "Popular Mechanic" magazine.

From more than 750 competing novels submitted by writers in every state in the union, in the Philippine Islands, in China and Europe, "The Able McLaughlins" by Margaret Wilson was chosen as winner of the Harper \$2,000 prize novel competition. The book has just been added to the library.

"The Able McLaughlins," Scotch

covenanters, devoted to one another deeply pious, but humor-loving and full of the emotion and sentiment which exists under the craggy Scotch exterior, are leaders in a pioneer Iowa community. Isabel McLaughlin, mother of ten, and Wully, the oldest son, are characters in whom one feels the spirit and intelligence and dauntless courage that carved out our western states. The story is Wully's—his wooing, his pride, his home building and the final triumph and victory which is his at the end of the book.

## ON THE SCREEN

### IDOL OF THE SCREEN IN A SOUTH SEA ISLAND STORY

A renowned star appears in "Marooned Hearts," the picture at the new Bijou Theatre today and Tuesday. Conway Tearle has long been considered an attraction by the ardent screen patron, and this clever actor's capabilities have never shown to better advantage than in this romance of the South Seas.

Mr. Tearle appears in a most sympathetic role, that of Paul Carrington, a young doctor, whose entire career, it appears, is to be sacrificed to satisfy a capricious woman's whim. Mr. Tearle does not make the Paul Carrington a "moonstruck" and overdependent weakling, but portrays him as a strong man who has been sadly hurt and who in an effort to forget, takes the best and noblest course—namely by plunging himself into hard work that will be of lasting benefit to humanity.

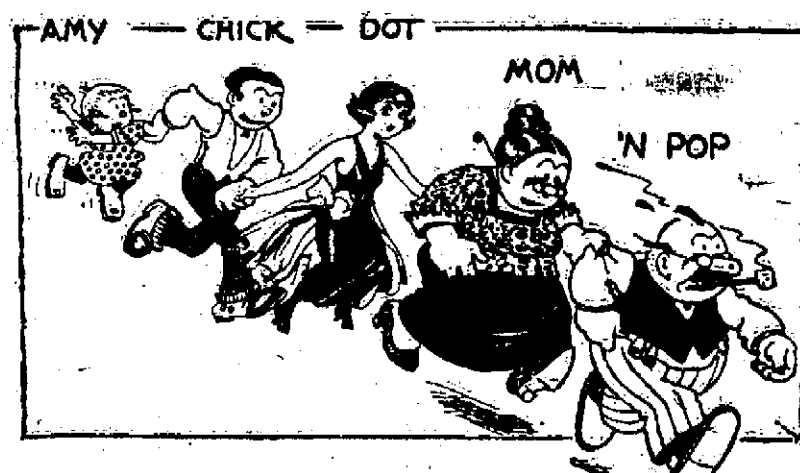

"The woman in the case" is ably depicted by Zena Keefe, and to this capable young actress must go honors almost equal to the star's. While the action of the story calls for the two to meet again on a South Sea Island, this situation is developed and handled in a manner so refreshingly new as to make it most interesting. The production as a whole has been elaborately staged and without apparent regard to expense.

### "SIX DAYS"

In "Six Days," the new Goldwyn photoplay which was shown for the first time in the Elite theatre at today's matinee, Elton Glyn, author of the sensational novel, "Three Weeks," tells one of her most original and colorful stories. It has bold drama, swift action, with characters all drawn in bold relief. There are thrilling episodes and spectacular events in this screen story, directed for Goldwyn by Charles Brabin, the man responsible for "Driven," and one of the ablest directors in filmdom. He has made of the Elton Glyn story picture that enthralls the interest from start to finish, that is entirely readable in atmosphere and in action, and realistic in characterization. This production further his standing as one of the leaders in his profession and gives a new angle on the literary genius of Elton Glyn.

The story is too complicated to be told here in detail and such a telling could lessen the picturegoer's pleasure in seeing it unfolded. It deals with a mother's attempt to marry her daughter to a wealthy Englishman for social and financial reasons. The girl meets and falls in love with the man's son. They are married in circumstances that lead them to expect certain death. Rescued separately, the girl is forced to marry the father and then claimed by his son. Suspense admirably maintained, the photography is clear and with many extremely beautiful shots and the story one sure to appeal to every taste. Corinne Griffith, one of the popular screen stars of the day is seen at her best as Laine Kingston, an American girl engaged to Sir Charles Chetwin, but who falls in love with the latter's son of whom the father is in ignorance. Frank Mayo, who has been starred in many big productions, is featured, along with Miss Griffith, in a role of the lover. Both give extremely good and appealing performances. The cast contains many other notable names, such as Myrtle Harmon, Claude King, Maude George, Ottiswood Altison, Charles Clary, Elyn Walsh Hall and others.

# SUSTAIN ACTION TO MOVE YELLOW TRAIL WESTWARD

Executive Committee Authorizes Signs Removed From Appleton Locality

Motorists following the Yellowstone trail across the country from east to west no longer will find themselves passing through Appleton, for the executive committee of the Yellowstone Trail association has decreed that the signs be removed and that the route be relocated a number of miles to the west. Neenah and Menasha suffer the same fate.

This is the gist of a letter received by Appleton Chamber of Commerce from H. O. Cooley, managing secretary of the trail organization. He declares that the committee was unanimous in its decision to change the route and this will be done as soon as new signs can be put up and the others removed.

The trail now will go northwest out of Oshkosh on state highway 95 through Winchester to Fremont and thence by way of route 13 to Waupaca. The former route was via route 15 from Oshkosh to Appleton through the Twin Cities, and then west on highway 18 through Dale to Fremont. The new route is more direct and this had as much to do with the change as the fact that proper financial support was not assured in this locality.

The proposal to make a change was made almost every year, and it was necessary to put up an annual fight to have the route remain in Appleton. This year the business men decided not to enter a protest, because they did not have backing of citizens in their efforts. Rerouting therefore was recommended at the association's state meeting at Marshfield and the national executive committee sustained the vote.

One of the final acts of the county board which was dissolved Saturday was to appropriate \$600 for surfacing a road in the town of Oneida. The appropriation is in addition to \$1,000 raised by the town of \$1,500 previously appropriated by the county board for graveling two miles of road or as much more as the appropriation will cover. The road starts from County trunk line C and extends on the section line of 21 and 23 and 25 and 27. One mile of this section is entirely new road.

The fate of next year's peoples for will be in the hands of a committee appointed by the committee on nominations, which is headed by W. E. Smith. The general committee was announced at Sunday night's forum. It consists of Dr. H. E. Peabody, Dr. J. A. Holmes, Leo C. Casey, the Mayor, W. J. Fitzmaurice, Dr. Samuel Plantz, Fred E. Bachman, Judson G. Rosebush, J. P. Frank, Gustave Keller, Theodore Glaser, W. H. Zuehlke, Hugh G. Corbett, A. J. Ingold, G. D. Ziegler, L. J. Marshall, Mrs. D. J. O'Connor and Mrs. D. O. Kinsman. This committee will elect the officers for next year.

Richard First to File NOMINATION PAPERS

Alderman George Richard of the Third ward is the first man to file nomination papers in the spring municipal election. He will seek reelection to the post he has held since the resignation of August Laabs several months ago.

Miss Marie Ginnow of Appleton, and her sister, Miss Gladys Ginnow of Neenah, spent the weekend with friends in Fond du Lac.

Heat Flashes, Chills or Dizzy Spells? This is of Vital Interest to Mothers and Women of Middle Age. Eau Claire, Wis.—"During pregnancy my health had so completely failed that I was confined to my bed, could not do anything I was advised to take Dr. Pierce's Favorite Prescription. The first bottle gave me wonderful relief and by the time I had taken four bottles I had completely regained my health and strength. I had practically no suffering and had a wonderfully healthy and strong baby. Later on, at the critical time of life, I began to suffer with heat flashes and chills, also dizzy spells. Dr. Pierce's Favorite Prescription gave me immediate relief and I came thru that trying time without any more trouble. I have since enjoyed perfect health."

# RESERVE BY NOON FOR C. OF C. DINNER

Reservations will be received up to noon Tuesday for the chamber of commerce forum, dinner at 6:15 Tuesday evening at Hotel Appleton. Serving is to start promptly at that hour and members have been urged to come early. The plan is to have the address of L. L. Newton of Babson Statistical Organization completed by 8 o'clock, and the debate on unemployment insurance by 9 o'clock. Those who are not thoroughly familiar with unemployment insurance will leave this meeting quite well informed. Men who will debate the question have given it deep study and will present every phase.

Mr. Newton will give "The Business Outlook for 1924" in his address.

# HELD BACK \$900 TO PAY DEBTS; IN SUIT

A suit arising out of the sale of stock in the Acme Body works has been started by George Wiegand of Appleton against J. M. Braun of Appleton. The case was tried before Judge A. M. Spencer in Municipal court Monday morning and was to be resumed in the afternoon.

It is alleged that Mr. Braun after paying \$4,000 for stock in the company retained \$900 under an agreement in order to pay for any indebtedness that does not appear on the books of the company. Mr. Braun maintains that he has found approximately \$2,400 indebtedness that is not in the books. The action is to recover the \$900 retained.

Red Holcomb, who is at St. Elizabeth hospital with a fractured leg and arm and scalp wound as the result of being caught in a shaft at Teulah mill, is improving daily.
